SECTION 01 INTRODUCTION

1.1	Overview of Project	1-1
1.2	Project Proponent	1-1
1.3	Project Description	1-2
1.3.1.1	Coal Mine	1-2
1.3.1.2	Coal Handling Preparation Plant and Mine Infrastructure.....	1-2
1.4	Project Rationale	1-5
1.4.1	Project Technical Feasibility and Commercial Viability	1-5
1.5	Relationship to other Projects	1-6
1.5.1	Alpha Coal Project	1-6
1.5.2	Projects in the Region.....	1-6
1.6	Socio-economic Cost and Benefits of the Project.....	1-9
1.7	Alternatives of the Project	1-9
1.7.1	No Project Option.....	1-9
1.7.2	Alternative Locations.....	1-10
1.7.3	Mining Methods.....	1-10
1.7.4	Coal Handling and Processing	1-11
1.7.5	Mine Waste Management	1-11
1.7.5.1	Coarse Reject.....	1-11
1.7.5.2	Tailings Storage Facility	1-11
1.7.6	Creek Diversions and Levees.....	1-13
1.7.7	Infrastructure.....	1-14
1.7.7.1	Energy	1-14
1.7.7.2	External Roads.....	1-15
1.7.7.3	Raw Water.....	1-15
1.7.7.4	Potable Water Supply and Treatment.....	1-16
1.7.7.5	Wastewater Treatment	1-16
1.7.7.6	Landfill	1-16
1.7.7.7	Mine Infrastructure Area Buildings	1-17
1.7.8	Workforce.....	1-17
1.7.8.1	Accommodation.....	1-17
1.7.8.2	Airstrip	1-17
1.7.8.3	Mobilisation	1-18
1.8	Co-location Opportunities.....	1-18
1.9	The Environmental Impact Assessment Process	1-18
1.9.1	Objectives of the Environmental Impact Statement.....	1-18
1.9.2	Queensland Government Process.....	1-19
1.9.2.1	Environmentally Relevant Activities and Environmental Authorities.....	1-21
1.9.3	Commonwealth Government Process	1-22
1.9.4	Studies 1-22	
1.9.5	Environmental Impact Statement Submissions	1-26
1.9.6	Public Consultation Process	1-26
1.10	Project Approvals	1-27

1.10.1	Commonwealth Government.....	1-28
1.10.1.1	Environmental Protection and Biodiversity Conservation Act 1999.....	1-28
1.10.1.2	Native Title Act 1993.....	1-29
1.10.2	Queensland Government.....	1-29
1.10.2.1	State Development and Public Works Organisation Act 1971.....	1-29
1.10.2.2	Environmental Protection Act 1994.....	1-30
1.10.2.3	Mineral Resources Act 1989.....	1-33
1.10.2.4	Sustainable Planning Act 2009.....	1-34
1.10.2.5	Water Act 2000 and Water Regulation 2002.....	1-34
1.10.2.6	Aboriginal Cultural Heritage Act 2003.....	1-35
1.10.2.7	Queensland Heritage Act 1992.....	1-35
1.10.2.8	Nature Conservation Act 1992.....	1-36
1.10.2.9	Transport Infrastructure Act 1994.....	1-36
1.10.2.10	Forestry Act 1959.....	1-36
1.10.2.11	Fisheries Act 1994.....	1-36
1.10.2.12	Dangerous Goods Safety Management Act 2001.....	1-37
1.10.2.13	Vegetation Management Act 1999.....	1-37
1.10.2.14	Other Legislation.....	1-37
1.10.3	Planning Processes and Standards.....	1-37
1.10.3.1	State Planning Policies.....	1-37
1.10.3.2	Regional Planning Provisions.....	1-38
1.10.3.3	Local Planning Provisions.....	1-39
1.10.4	Accredited Process for Controlled Actions under Legislation.....	1-39

SECTION 02 DESCRIPTION OF THE PROJECT

2.1	Overview of Project.....	2-1
2.1.1	Project Components.....	2-1
2.1.1.1	Coal Mine.....	2-1
2.1.1.2	CHPP and Mine Infrastructure.....	2-1
2.1.2	Project Timing and Employment.....	2-2
2.1.3	Summary of Environmental Design Features.....	2-2
2.1.4	Employment Benefits.....	2-2
2.2	Location.....	2-2
2.3	Construction.....	2-10
2.3.1	Site Preparation.....	2-10
2.3.1.1	Removal of Existing Structures.....	2-10
2.3.1.2	Site Clearance.....	2-11
2.3.1.3	Access Road.....	2-11
2.3.1.4	Initial Temporary Water Supply and Wastewater Management.....	2-11
2.3.1.5	Power Supply.....	2-11
2.3.1.6	Communications.....	2-11
2.3.1.7	Emergency and Security.....	2-11
2.3.2	Civil Works.....	2-11
2.3.2.1	Excavated Material Assessment.....	2-12
2.3.3	Mining Infrastructure Area Building and Coal Handling Preparation Plant Construction.....	2-12

2.3.3.1	Quarry Pits	2-12
2.3.3.2	Dragline Construction.....	2-12
2.3.3.3	Clean-up of Construction Areas	2-13
2.3.4	Construction Equipment and Materials.....	2-13
2.4	Project Operations	2-13
2.4.1	Mine	2-13
2.4.1.1	Coal Resource Base and Mine Life.....	2-13
2.4.1.2	Mining Method.....	2-17
2.4.1.3	Mining Equipment.....	2-18
2.4.1.4	Mine Sequencing.....	2-19
2.4.1.5	Ongoing Evaluation and Exploration Activities	2-32
2.4.2	Coal Handling and Preparation Plant	2-32
2.5	Associated Infrastructure	2-39
2.5.1	Workforce and Accommodation.....	2-39
2.5.1.1	Construction Personnel Numbers	2-39
2.5.1.2	Operational Personnel Numbers.....	2-39
2.5.1.3	Accommodation.....	2-43
2.5.2	Transport.....	2-45
2.5.2.1	Road.....	2-45
2.5.2.2	Transport of Materials	2-46
2.5.2.3	Air Transport.....	2-48
2.5.3	Waste Management.....	2-48
2.5.3.1	Industrial Waste.....	2-48
2.5.3.2	Mine Waste	2-48
2.5.4	Water and Wastewater Systems.....	2-49
2.5.4.1	Construction Water Supply.....	2-49
2.5.4.2	Operational Water Supply	2-49
2.5.4.3	Potable Water Treatment and Reticulation	2-49
2.5.4.4	Raw and Fire Water Storage and Reticulation.....	2-52
2.5.4.5	Sewage Collection and Treatment	2-52
2.5.5	Water Management System	2-54
2.5.5.1	Creek Diversions and Crossings.....	2-54
2.5.6	Stormwater Drainage	2-57
2.5.7	Energy	2-57
2.5.7.1	Construction Power Supply.....	2-57
2.5.7.2	Operational Power Supply, Reticulation and Lighting.....	2-58
2.5.8	Communications	2-58
2.5.8.1	Construction Communication	2-58
2.5.8.2	Operational Communications.....	2-59

SECTION 03 CLIMATE

3.1	Introduction.....	3-1
3.2	Rainfall	3-1
3.3	Air Temperature	3-2
3.4	Relative Humidity	3-3
3.5	Wind	3-4

3.6	Stability Class	3-7
3.7	Mixing Height	3-8
3.8	Extremes of Climate.....	3-9
3.8.1	Drought.....	3-9
3.8.2	Flooding	3-10
3.8.3	Storm Events	3-11
3.8.4	Bushfires.....	3-12
3.8.5	Climate Change	3-13

SECTION 04 GEOLOGY

4.1	Tenure.....	4-1
4.2	Regional Geology	4-1
4.3	Project Specific Geology.....	4-5
4.3.1	Quaternary and Tertiary (Cainozoic)	4-11
4.3.2	Rewan Formation	4-11
4.3.3	Permian	4-12
4.3.3.1	A Seam	4-14
4.3.3.2	B Seam	4-18
4.3.3.3	B-C Interburden.....	4-18
4.3.3.4	C Seam	4-20
4.3.3.5	C-D Interburden	4-26
4.3.3.6	D Seam	4-27
4.3.3.7	D to E Interburden.....	4-30
4.3.3.8	E and F Seams	4-31
4.4	Geological Structures within the Area of Disturbance	4-34
4.5	Geological Factors that may Influence Ground Stability.....	4-34
4.5.1	Geological studies	4-34
4.5.2	Slope Stability	4-34
4.6	Metallurgical and Environmental Consideration	4-34
4.6.1	Coal Characterisation	4-34
4.6.2	Coal Quality	4-38
4.6.2.1	Washability.....	4-38
4.6.2.2	Spontaneous Combustion Propensity.....	4-38
4.6.3	Mineralogy	4-38
4.6.3.1	Implications	4-40
4.7	Summary of Exploration Process	4-40
4.7.1	1970 to 1979.....	4-40
4.7.2	1980 to 2007.....	4-41
4.7.3	2008 to August 2010	4-41
4.7.4	Mineral and Petroleum Exploration	4-42
4.8	Coal Resources	4-42
4.8.1	Geological Modelling	4-42
4.8.1.1	Weathered zone.....	4-43
4.8.1.2	A Seam	4-43
4.8.1.3	B Seam	4-43
4.8.1.4	C Seam	4-43

4.8.1.5	D Seam.....	4-43
4.8.2	Coal Resource Estimation Results	4-44
4.8.2.1	Joint Ore Reserves Committee Code Requirements	4-44
4.8.2.2	Resource Estimation Approach and Assumptions	4-45
4.8.2.3	Alpha Coal Project Resource Estimate	4-48
4.9	Potential Impacts and Mitigation	4-48
4.9.1	Floor Stability	4-49
4.9.2	B-C Interburden Stability	4-49
4.9.3	Acid and Metalliferous Drainage	4-49
4.9.4	Upper C Seam Carbonaceous Material	4-50
4.9.5	C-D Aquifer	4-50
4.9.6	Resource Sterilisation	4-50
4.9.7	Spontaneous Combustion.....	4-51
4.9.8	Blasting using Ammonium Nitrate/Fuel Oil	4-51
4.9.9	Mine Efficiency	4-51
4.9.10	Fossils	4-52
4.9.11	Slaking and Tailings.....	4-52
4.9.12	Rehabilitation and Closure.....	4-52
4.10	Infrastructure Corridor Geology.....	4-53
4.10.1	Associated Infrastructure	4-53
4.10.2	Rail Corridor Geology	4-53

SECTION 05 SOILS TOPOGRAPHY AND LAND DISTURBANCE

5.1	Soils.....	5-1
5.1.1	Introduction	5-1
5.1.2	Description of Environmental Values.....	5-1
5.1.3	Potential Impacts and Mitigation Measures	5-12
5.1.4	Conclusions	5-15

SECTION 06 LAND USE AND TENURE

6.1	Introduction.....	6-1
6.2	Locality Characterisation.....	6-1
6.2.1	Current land Ownership	6-3
6.2.2	Current Land Use.....	6-6
6.2.3	Specific Features	6-8
6.2.4	Native Title Considerations	6-9
6.2.5	Land Suitability.....	6-9
6.3	Land Use Planning Provisions	6-20
6.3.1	Sustainable Planning Act.....	6-20
6.3.2	Regional Plans.....	6-23
6.3.3	Local Planning Scheme	6-28
6.3.4	Project Approvals.....	6-31
6.3.5	Impacts upon Land Use.....	6-31

SECTION 07 LANDSCAPE CHARACTER

7.1	Regional Landscape Context.....	7-1
-----	---------------------------------	-----

7.2 Local Landscape Context 7-1

7.3 Regional and Local Population Centres 7-4

7.4 The Post European Settlement Landscape 7-4

7.5 Landform and Vegetation 7-4

7.6 Panorama Photographs 7-5

7.7 Landscape Character and Sensitivity 7-14

7.8 Major Views and Viewshed 7-18

7.9 Visual Absorption Capability 7-20

7.10 Value of Existing Screening Vegetation 7-20

7.11 Landscape Significance 7-20

7.12 General Mine Infrastructure 7-21

7.13 Mining Operations 7-21

7.14 Visual Impact Assessment 7-21

7.15 Summary of Potential Visual Impacts 7-30

7.16 Visual Impact Mitigation Measures 7-41

 7.16.1 Retention of Existing Vegetation Buffers 7-41

 7.16.2 Management of Natural Regeneration within the Project Area 7-41

 7.16.3 Colour Selection and Finishes 7-41

 7.16.4 Night Time Lighting Impacts and Mitigation Measures 7-41

 7.16.5 Effects of Night Time Lighting on Fauna 7-42

7.17 Conclusions 7-42

SECTION 08 LAND CONTAMINATION

8.1 Introduction 8-1

8.2 Summary of Results 8-1

8.3 Potential Impacts and Mitigation Measures 8-3

 8.3.1 Potential Impacts 8-3

 8.3.2 Potential Mitigation Measures 8-3

SECTION 09 TERRESTRIAL ECOLOGY

9.1 Nature Conservation 9-1

 9.1.1 Introduction 9-1

 9.1.2 Sensitive Environmental Areas 9-1

 9.1.2.1 Description of Environmental Values 9-3

 9.1.2.2 Potential Impacts and Mitigation Measures 9-6

 9.1.3 Terrestrial Flora 9-7

 9.1.3.1 Description of Environmental Values 9-7

 9.1.3.2 Potential Impacts and Mitigation Measures 9-24

 9.1.4 Terrestrial Fauna 9-31

 9.1.4.1 Description of Environmental Values 9-31

 9.1.4.2 Potential Impacts and Mitigation Measures 9-38

 9.1.5 Conclusions 9-45

SECTION 10 AQUATIC ECOLOGY AND STYGOFAUNA

10.1 Introduction 10-1

10.2 Aquatic Ecosystems 10-1

10.2.1	Description of Environmental Values	10-1
10.2.2	Methodology	10-4
10.2.2.1	Surface Water	10-4
10.2.2.2	Aquatic and Riparian Vegetation Identification.....	10-4
10.2.2.3	Macroinvertebrate Sampling.....	10-4
10.2.3	Results and Discussion.....	10-6
10.2.3.1	Surface Water	10-6
10.2.3.2	Aquatic and Riparian Vegetation Identification.....	10-12
10.2.3.3	Macroinvertebrate Sampling.....	10-12
10.2.3.4	Habitat Assessment.....	10-15
10.2.4	Potential Impacts and Mitigation Measures	10-18
10.2.4.1	Potential Impacts	10-18
10.2.4.2	Mitigation Measures.....	10-20
10.2.4.3	Management Strategies for Aquatic Ecosystems.....	10-20
10.3	Aquatic Flora and Fauna	10-21
10.3.1	Description of Environmental Values	10-21
10.3.2	Methodology	10-21
10.3.2.1	Aquatic Vertebrate Fauna Sampling.....	10-21
10.3.3	Results and Discussion.....	10-22
10.3.3.1	Riparian Vegetation	10-22
10.3.3.2	Amphibians	10-22
10.3.3.3	Fish	10-23
10.3.3.4	Reptiles.....	10-23
10.3.3.5	Birds.....	10-23
10.3.3.6	Mammals	10-25
10.3.3.7	Riparian Vegetation Communities of Conservation Significance	10-25
10.3.3.8	Plants of Conservation Significance	10-25
10.3.4	Potential Impacts and Mitigation Measures	10-25
10.3.4.1	Sensitivity to Possible Change in Habitat Value.....	10-25
10.3.4.2	Potential Impacts	10-26
10.3.4.3	Mitigation Measures.....	10-27
10.3.4.4	Aquatic Fauna Monitoring.....	10-27
10.3.4.5	Management Strategies for Weeds.....	10-27
10.3.4.6	Management Strategies for Pest Fauna Species	10-27
10.4	Stygofauna	10-28
10.4.1	Description of Environmental Values	10-28
10.4.2	Stygofauna Sampling Methodology	10-28
10.4.3	Stygofauna Sampling Results.....	10-29
10.4.3.1	Groundwater Quality.....	10-29
10.4.3.2	Environmental Values.....	10-33
10.4.4	Potential Impacts and Mitigation Measures	10-33
10.5	Conclusions.....	10-33

SECTION 11 SURFACE WATER

11.1	Introduction.....	11-1
11.1.1	Overview	11-1

11.1.2	Inter-relationship with other EIS Studies	11-1
11.1.2.1	Surface Water context of the Project location	11-1
11.2	Legislative Framework	11-1
11.2.1	Water Act 2000	11-2
11.2.1.1	Water Planning Provisions of Water Act	11-2
11.2.1.2	Protection of Watercourses provisions of Water Act	11-3
11.2.2	Water Supply (Safety and Reliability) Act 2008	11-3
11.2.3	Environmental Protection Act 1994	11-3
11.2.3.1	EM Plan and Environmental Authority relevance to Surface Water Management	11-3
11.2.3.2	Environmental Protection (Water) Policy 2009	11-3
11.2.4	Sustainable Planning Act 2009	11-4
11.3	Assessment Methodologies	11-4
11.3.1	Flood assessment	11-4
11.3.2	Geomorphology assessment	11-5
11.3.3	Surface water quality assessment	11-5
11.3.4	Mine Water Management System and water balance assessment	11-6
11.4	Existing Surface Water Environment	11-7
11.4.1	Catchment context	11-7
11.4.1.1	Catchment land use	11-7
11.4.2	Climate and Hydrology	11-9
11.4.2.1	Climate	11-9
11.4.2.2	Hydrology	11-10
11.4.3	Watercourses	11-10
11.4.4	Existing Water uses	11-13
11.4.5	Existing stream geomorphologic conditions	11-13
11.4.5.1	Landscape scale	11-13
11.4.5.2	Watercourse Features	11-13
11.4.5.3	Significance of geomorphologic features to guide design of the Project stream diversions	11-15
11.4.6	Existing Water Quality	11-17
11.4.6.1	Environmental values	11-17
11.4.6.2	Existing water quality assessment	11-18
11.4.7	Flooding	11-21
11.4.7.1	Flood modelling	11-21
11.4.7.2	Flood hydrology	11-21
11.4.7.3	Flood Levels and Extents	11-22
11.4.7.4	Stream geomorphology hydraulic parameters	11-22
11.5	Proposed Project Surface Water Management	11-24
11.5.1	Overview	11-24
11.5.2	Status of Design	11-24
11.5.3	Water supply and storage requirements	11-25
11.5.3.1	Construction water supply	11-25
11.5.3.2	Operational water supply	11-25
11.5.3.3	Potable water requirements	11-25
11.5.4	Sewage and wastewater management	11-26

11.5.4.1	Stormwater management outside the mine area (accommodation village)	11-27
11.5.5	Creek diversions	11-27
11.5.5.1	Design process	11-27
11.5.5.2	Diversion design objectives and criteria	11-28
11.5.5.3	Diversion Layouts and Lengths	11-29
11.5.5.4	Figure 11-3 Proposed Concept Diversions and Flood Levees	11-30
11.5.5.5	Active channel meandering concepts	11-31
11.5.5.6	Concept active channel section	11-31
11.5.5.7	Surface treatments and habitat enhancement	11-32
11.5.6	Flood protection for the mine	11-32
11.5.6.1	Layout and Extents	11-32
11.5.6.2	Level of Flood Protection	11-33
11.5.6.3	Design construction and maintenance of flood protection levee banks	11-33
11.5.7	Mine Water Management System	11-34
11.5.7.1	Overview of the mine water management system	11-34
11.5.7.2	Key influences for the required mine water management system	11-34
11.5.7.3	Proposed segregation of mine waters	11-35
11.5.7.4	Spoil runoff quality and implications for mine water management	11-36
11.5.7.5	Proposed controlled discharge criteria	11-37
11.5.7.6	Expected frequency, source and location of controlled discharges	11-39
11.5.7.7	Design criteria to limit uncontrolled discharges	11-40
11.5.7.8	Overall arrangement of the proposed mine water management system	11-41
11.5.7.9	TSF and Process Water System	11-42
11.5.7.10	Figure 11-5 Concept Water Management Sys - Yr 1 Figure 11-6 Concept Water Management - Yr 5	11-44
11.5.7.10	Figure 11-6 Concept Water Management - Yr 5	11-45
11.5.7.11	Figure 11-7 Concept Water Management - Yr 10	11-46
11.5.7.12	Figure 11-8 Concept Water Management - Yr 20	11-47
11.5.7.13	Figure 11-9 Concept Water Management - Yr 30	11-48
11.5.7.14	Contaminated water management system	11-49
11.5.7.15	Spoil runoff water management system	11-50
11.5.7.16	Referrable dams	11-50
11.5.7.17	Site water balance model	11-51
11.5.7.18	Model catchment data	11-51
11.5.7.19	Model storage capacities	11-52
11.5.7.20	Mine water management system operating rules	11-52
11.5.7.21	Model water sources	11-53
11.5.7.22	Estimated water demands for mine operations	11-53
11.5.7.23	Results of water balance modelling	11-55
11.6	Potential impacts and mitigation strategies	11-56
11.6.1	Impacts on watercourse hydrology	11-56
11.6.1.1	Impacts on downstream flow volumes (water resources)	11-57
11.6.1.2	Impact on temporal flow characteristics	11-58
11.6.1.3	Impacts on downstream flood hydrology	11-59
11.6.2	Surface Water Quality Impacts and Mitigation	11-60

11.6.2.1	Construction phase water quality impacts and mitigation strategies	11-61
11.6.2.2	Operational phase water quality impacts and mitigation strategies	11-63
11.6.3	Impacts on flooding levels	11-66
11.6.3.1	Estimated flood level with Project diversion and flood levee works	11-66
11.6.4	Geomorphologic impacts of stream diversions	11-67
11.6.4.1	Overview of potential geomorphologic impacts.....	11-67
11.6.4.2	Impacts of proposed diversion alignment and stream lengths	11-68
11.6.4.3	Impacts of proposed diversion low flow channel geometry.....	11-68
11.6.4.4	Impacts of proposed diversion low flow meander design.....	11-68
11.6.4.5	Substrate conditions and water quality impacts	11-68
11.6.4.6	Hydraulic impacts on stability of the proposed diversion channels.....	11-69
11.6.4.7	Adequacy of Lagoon Creek floodplain corridor for extreme floods	11-72
11.7	Surface Water Monitoring	11-73
11.7.1	Surface water quality monitoring programs	11-73
11.7.2	Stream diversions monitoring program	11-75

SECTION 12 GROUNDWATER

12.1	Introduction	12-1
12.2	Tenure.....	12-1
12.3	Legislative Background.....	12-1
12.4	Environmental Values	12-3
12.5	Regional and Site Geology	12-3
12.6	Hydrostratigraphy.....	12-3
12.6.1	Permian Deposits	12-6
	Relationship to the GAB.....	12-8
12.7	Surface Water Environment.....	12-8
12.8	Existing Groundwater Environment	12-10
12.8.1	Groundwater Investigations.....	12-10
12.8.1.1	Previous Investigations	12-10
12.8.1.2	Current Investigations	12-16
12.8.2	Existing Groundwater Users.....	12-16
12.8.2.1	DERM Groundwater Database.....	12-16
12.8.2.2	Bore Survey.....	12-18
12.8.3	Potentiometric Surface and Groundwater Flow Direction	12-18
12.8.4	Groundwater Recharge	12-19
12.8.4.1	Rainfall Data	12-19
12.8.4.2	Rates of Groundwater Recharge.....	12-19
12.8.4.3	Recharge Mechanism 1 – Direct Recharge to Outcrop Areas.....	12-21
12.8.4.4	Recharge Mechanism 2 – Diffuse recharge from the Great Dividing Range	12-21
12.8.4.5	Proposed Recharge Mechanisms	12-21
12.8.5	Groundwater Discharge.....	12-22
12.8.5.1	Areas of potential groundwater discharge.....	12-22
12.8.6	Groundwater Yield.....	12-22
12.8.6.1	Review of Air-Lift Yield Data.....	12-22
12.8.6.2	Pumping Test Data.....	12-25
12.8.7	Sustainable Yield.....	12-25

12.8.8	Water Quality	12-26
12.8.8.1	Summary Data from DERM Groundwater Database	12-26
12.8.8.2	Laboratory Analysis - Site Data	12-27
12.8.9	Groundwater Beneficial Use	12-28
12.8.10	Conceptual Groundwater Model – Pre-Mining.....	12-28
12.9	Impact of the Proposed Operation on Groundwater	12-31
12.9.1	Mine Dewatering Requirements	12-31
12.9.1.1	Management of Water from Mine Dewatering Operations	12-31
12.9.2	Impacts from Mine Infrastructure	12-32
12.9.2.1	Tailings Storage Facility.....	12-32
12.9.3	Other Facilities	12-35
12.9.4	Impact on Recharge.....	12-35
12.9.5	Impact on Existing Groundwater Users	12-35
12.9.6	Surface Water Impacts	12-35
12.9.7	Groundwater Quality Impacts	12-36
12.9.8	Final Void	12-36
12.9.9	Cumulative Impacts	12-36
12.10	Conceptual Groundwater Model – Post Mining	12-37
12.11	Groundwater Monitoring and Mitigation Measures	12-39

SECTION 13 AIR QUALITY

13.1	Environmental Values	13-2
13.1.1	Legislative Framework	13-2
13.1.1.1	National Legislative Framework	13-2
13.1.1.2	Queensland Legislative Framework	13-2
13.1.1.3	Summary of Project Ambient Air Goals	13-3
13.1.2	Existing Air Quality	13-4
13.1.2.1	Particulate Matter.....	13-4
13.1.2.2	Dust Deposition	13-4
13.1.2.3	Summary of Estimates of Background Levels.....	13-4
13.2	Air Quality Assessment Methodology	13-7
13.2.1	Sensitive Receptor Location	13-7
13.2.2	Air Emissions from the Alpha Coal Project (Mine).....	13-9
13.2.2.1	Emission Sources	13-9
13.2.2.2	Emission Factors for TSP and PM ₁₀	13-9
13.2.2.3	Dust Reduction Measures	13-10
13.2.2.4	Emissions during Construction	13-11
13.2.2.5	Emissions during Operation	13-13
13.2.3	Modelling Methodology	13-14
13.2.3.1	Meteorological Modelling Methodology	13-14
13.2.3.2	Dispersion Modelling Methodology.....	13-15
13.2.3.3	Refinements to the Assessment Methodology	13-17
13.3	Dispersion Modelling Results.....	13-17
13.3.1	Construction Phase.....	13-17
13.3.2	Operational Phase	13-18
13.3.2.1	Particulate Matter as PM ₁₀	13-18

13.3.2.2	Particulate Matter as PM _{2.5}	13-19
13.3.2.3	Particulate Matter as TSP	13-24
13.3.2.4	Dust Deposition	13-25
13.3.2.5	Cumulative Impacts.....	13-26
13.4	Mitigation Measures.....	13-26
13.4.1	Engineering Control Measures	13-27
13.4.2	Dust Suppression Measures	13-27
13.4.3	Rehabilitation of Exposed Surfaces.....	13-27
13.4.4	Operational Procedures.....	13-27
13.4.4.1	Prevention and mitigation of Worst Case Impacts	13-28
13.4.5	Measurement of Ambient Air Quality	13-28
13.4.5.1	Monitoring Standards	13-29
13.4.5.2	Monitoring Locations	13-29
13.4.5.3	Ambient Air Monitoring Program	13-30
13.4.6	Operational and On-Site Monitoring Program	13-32
13.4.7	Consultation.....	13-32

SECTION 14 GREENHOUSE GAS EMISSIONS AND CLIMATE CHANGE

14.1	Introduction	14-1
14.2	Greenhouse Gas Emissions	14-1
14.2.1	Legislative Framework.....	14-1
14.2.1.1	International Policy	14-1
14.2.1.2	Australian Policy	14-1
14.2.1.3	State Policy Initiatives	14-3
14.2.2	Inventory Methodology	14-4
14.2.2.1	Accounting and Reporting Principles	14-4
14.2.2.2	Inventory Boundaries	14-4
14.2.2.3	Calculation Approach	14-5
14.2.3	Calculated Emissions	14-9
14.2.3.1	Scope 1 and Scope 2 Emission Summary.....	14-9
14.2.3.2	Performance Measures	14-10
14.2.4	Emissions Comparison.....	14-10
14.2.4.1	Australian Emissions	14-10
14.2.4.2	Queensland Emissions.....	14-11
14.2.5	Abatement	14-12
14.3	Climate Change Impact Assessment.....	14-12
14.3.1	Predicted Impacts.....	14-13
14.3.1.1	Model Limitations.....	14-13
14.3.1.2	Predicted Impacts.....	14-13
14.3.2	Risk Assessment	14-15
14.3.2.1	Methodology	14-15
14.3.2.2	Results.....	14-17
14.3.3	Risk Management Measures.....	14-18

SECTION 15 NOISE AND VIBRATION

15.1	Introduction	15-1
------	--------------------	------

15.2	Existing Acoustic Environment.....	15-1
15.2.1	Noise Sensitive Receptors.....	15-1
15.2.2	Noise Measurement Methodology.....	15-4
15.2.3	Noise Measurement Results.....	15-4
15.3	Background Vibration Monitoring.....	15-5
15.4	Project Acoustic Criteria.....	15-5
15.4.1	Construction Noise Criteria.....	15-6
15.4.1.1	Environmental Protection (Noise) Policy 2008.....	15-6
15.4.2	Operational Noise Criteria.....	15-6
15.4.2.1	Background Creep.....	15-6
15.4.2.2	Planning Noise Levels (PNL).....	15-7
15.4.2.3	Specific Noise Levels (SNL).....	15-7
15.4.3	Sleep Disturbance Criteria.....	15-7
15.4.4	Low Frequency Noise Criteria.....	15-8
15.4.5	Blasting Noise and Vibration Criteria.....	15-8
15.4.6	Off-Site Road Traffic Noise Criteria.....	15-9
15.5	Assessment of Potential Noise Impacts.....	15-9
15.5.1	Calculation Method.....	15-9
15.5.2	Meteorological Conditions.....	15-10
15.5.3	Operational Noise.....	15-10
15.5.3.1	Primary Noise Sources.....	15-10
15.5.3.2	Noise Modelling Scenarios.....	15-10
15.5.3.3	Predicted Operational Noise Levels.....	15-12
15.5.3.4	Receptors A – H.....	15-13
15.5.3.5	Receptor J, Wendouree Homestead.....	15-13
15.5.3.6	Receptor I, Hobartville Homestead.....	15-13
15.5.3.7	Receptor K, HPPL Accommodation Village.....	15-13
15.5.4	Construction Noise.....	15-14
15.5.4.1	Primary Noise Sources.....	15-14
15.5.4.2	Predicted Construction Noise Levels.....	15-14
15.5.5	Low Frequency Noise.....	15-15
15.6	Blasting Noise and Vibration.....	15-15
15.6.1	Ground Vibration.....	15-15
15.6.2	Vibration Effects on Underground Pipelines.....	15-16
15.6.3	Vibration Effects on Underground Communications Cabling.....	15-16
15.6.4	Overpressure.....	15-16
15.6.4.1	Receptors A-H.....	15-16
15.6.4.2	Receptor J, Wendouree Homestead.....	15-17
15.6.4.3	Receptor I, Hobartville Homestead.....	15-17
15.6.4.4	Receptor K, HPPL Accommodation Village.....	15-17
15.6.5	Sleep Disturbance.....	15-17
15.6.6	Off-Site Traffic Noise.....	15-18
15.6.7	Impacts on Fauna.....	15-19
15.6.8	Noise Mitigation Measures.....	15-20
15.7	Summary of Potential Noise and Vibration Impacts.....	15-20

15.7.1	Operations Noise	15-20
15.7.2	Construction Noise	15-20
15.7.3	Blasting	15-20
15.7.4	Sleep Disturbance	15-20
15.7.5	Low Frequency Noise	15-21
15.7.6	Off-Site Traffic Noise	15-21
15.8	Conclusion	15-21

SECTION 16 WASTE

16.1	Introduction	16-1
16.2	General Waste Management	16-1
16.2.1	Regulatory Requirements	16-1
16.2.1.1	Commonwealth Requirements	16-1
16.2.1.2	State Requirements	16-1
16.2.1.3	Local Authority Requirements	16-2
16.2.2	Project Waste Streams	16-3
16.2.2.1	Early Works and Construction Phase	16-3
16.2.2.2	Early Works Waste Inventory	16-4
16.2.2.3	Construction Phase Waste Inventory	16-11
16.2.2.4	Operational Phase Waste Inventory	16-12
16.2.2.5	Decommissioning Phase Waste Inventory	16-13
16.2.3	Waste Management Strategy	16-18
16.2.3.1	Waste Minimisation	16-18
16.2.3.2	Cleaner Production	16-18
16.2.4	Waste Handling, Storage, Collection and Disposal	16-19
16.2.5	On-site Landfill	16-19
16.2.5.1	Landfill Capacity	16-20
16.2.5.2	Key Design Features	16-21
16.2.5.3	Landfill Environmental Management System	16-22
16.2.5.4	Site Security	16-31
16.2.5.5	Personnel and Major Plant and Equipment	16-32
16.2.5.6	Landfill Construction	16-32
16.2.5.7	Waste Filling Operation	16-32
16.2.5.8	Landfill Closure and Post-Closure	16-33
16.2.6	Other On-Site Waste Management Measures	16-34
16.2.7	Waste Tracking	16-34
16.2.8	Waste Management Plan (Construction)	16-35
16.2.9	Waste Management Plan (Operations)	16-35
16.2.10	Decommissioning	16-36
16.2.11	Residual Impacts	16-36
16.2.12	Conclusions	16-36
16.3	Mine Waste Management	16-37
16.3.1	Introduction	16-37
16.3.2	Geology	16-38
16.4	Mining Waste	16-40
16.4.1	Coal and Mining Waste Quantities	16-40

16.4.2	Coal and Mining Waste Storage	16-40
16.4.2.1	Coal.....	16-40
16.4.2.2	Overburden.....	16-40
16.4.2.3	Coarse Rejects	16-41
16.4.2.4	Tailings.....	16-43
16.5	Coal and Mining Waste Characterisation.....	16-45
16.5.1	Overview of approach.....	16-45
16.5.2	Geological Model	16-45
16.5.3	Geochemical Data - Sampling Strategy.....	16-46
16.5.4	Geochemical characterisation.....	16-51
16.5.5	Geostatistical Modelling.....	16-51
16.5.6	Comparison with similar case histories.....	16-52
16.5.7	Operational Sampling and Testing	16-52
16.6	Geochemical Nature of Coal and Mining Waste Materials	16-53
16.6.1	Acid Generating Potential	16-53
16.6.1.1	Coal.....	16-53
16.6.1.2	Overburden / Waste Rock	16-53
16.6.1.3	Coal Seam Roof and Floor Materials	16-54
16.6.1.4	Coarse Rejects	16-55
16.6.1.5	Fine Rejects (Tailings).....	16-55
16.6.2	Multi-Element Composition and Water Quality	16-55
16.6.3	Mining Waste Mitigation and Management Measures.....	16-56
16.6.3.1	Use of Overburden/Spoil Materials for Re-vegetation/Rehabilitation.....	16-56
16.6.3.2	Summary of Management Measures	16-56
16.6.3.3	Ongoing Geochemical Sampling and Analysis	16-57
16.6.3.4	Water Quality Management and Monitoring.....	16-57
16.7	Tailings Disposal Alternative	16-57

SECTION 17 TRANSPORT

17.1	Introduction.....	17-1
17.1.1	Project-Related Transport Infrastructure	17-1
17.2	Existing Conditions.....	17-3
17.2.1	Regional Road Network	17-3
17.2.1.1	Peak Downs Highway (70)	17-3
17.2.1.2	Gregory Highway (A7)	17-3
17.2.1.3	Capricorn Highway	17-3
17.2.1.4	Clermont-Alpha Road	17-4
17.2.2	Local Road Network.....	17-4
17.2.2.1	Hobartville Road	17-4
17.2.2.2	Degulla Road	17-4
17.2.3	Public Transport and Freight Routes	17-4
17.2.4	Existing Road Accident Data	17-5
17.2.5	Scheduled Road Improvement Projects	17-5
17.2.6	Consultation Summary.....	17-6
17.3	Traffic Volumes	17-6
17.3.1	Existing Traffic Volumes	17-6

17.3.2	Traffic Volume Assessment Scenarios	17-6
17.3.3	Historical Traffic Growth and Future Background Volumes	17-6
17.3.4	Traffic Generation of Project.....	17-7
17.3.4.1	Construction Phase	17-7
17.3.4.2	Operational Phase.....	17-9
17.3.5	Distribution of Generated Traffic.....	17-10
17.3.6	Total Future Traffic Volumes	17-12
17.4	Pavement Impact Assessment	17-13
17.5	Road Network Performance	17-13
17.5.1	Road Links Assessment	17-14
17.5.2	Intersection Assessment	17-15
17.5.2.1	Capricorn Highway and Gregory Highway Intersection	17-15
17.5.2.2	Capricorn Highway and Clermont-Alpha Road Intersection	17-16
17.6	Road Use Considerations	17-17
17.6.1	Road Use Management.....	17-17
17.6.2	Planning.....	17-17
17.6.3	Noise	17-17
17.6.4	Dust and Flood Control.....	17-17
17.6.5	Roadworks in Road Reserve.....	17-18
17.6.6	On-Site Parking, Circulation and Vehicle Separation.....	17-18
17.6.7	Transportation of Dangerous Goods and Hazardous Materials.....	17-18
17.6.8	Over Dimensional Vehicles	17-19
17.7	Impact Mitigation.....	17-20
17.7.1	Public Road Closures and Associated Bypass Works	17-20
17.7.2	Site Access intersections.....	17-20
17.7.3	Employee Transport Systems	17-20
17.7.4	Transport Management Plan	17-20
17.7.5	Road Maintenance Program.....	17-20
17.7.6	Over Dimensional Vehicles	17-21
17.8	Conclusions	17-21
17.8.1	Traffic Generation	17-21
17.8.2	Background Traffic.....	17-21
17.8.3	Road Network Performance Impacts.....	17-22
17.8.4	Pavement Impact.....	17-22
17.8.5	Required Mitigation Measures.....	17-22

SECTION 18 INDIGENOUS CULTURAL HERITAGE

18.1	Introduction	18-1
18.2	Description of Environmental Values.....	18-1
18.2.1	Historical Background.....	18-1
18.2.2	Consultation.....	18-2
18.2.2.1	Cultural Heritage Management Plan Process	18-2
18.2.2.2	Hancock Prospecting Pty Ltd Policies.....	18-3
18.2.3	Environmental Values.....	18-3
18.2.3.1	Desktop Review.....	18-4
18.2.4	Assessment of Significance.....	18-6

18.2.4.1	Scientific (Archaeological) Significance.....	18-7
18.2.4.2	Areas and Objects of Significance to Traditional Owners	18-8
18.2.5	Findings.....	18-8
18.3	Potential Impacts and Mitigation Measures	18-9
18.3.1	Potential Impacts	18-9
18.3.2	Mitigation Measures	18-9

SECTION 19 NON-INDIGENOUS CULTURAL HERITAGE

19.1	Introduction.....	19-1
19.2	Description of Environmental Values	19-1
19.2.1	Historical Background.....	19-1
19.2.1.1	Exploration.....	19-1
19.2.1.2	Early Settlement	19-2
19.2.1.3	Frontier Conflict	19-3
19.2.1.4	Consolidation	19-3
19.2.1.5	Mining	19-4
19.3	Assessment Methodology.....	19-5
19.3.1	Limitations and Constraints of the Assessment.....	19-5
19.3.1.1	Access to Properties.....	19-5
19.3.1.2	Landform and Disturbance	19-6
19.3.1.3	Ground Surface Visibility	19-6
19.3.2	Desktop Results.....	19-6
19.3.2.1	Register and Database Searches.....	19-6
19.3.2.2	Consultation.....	19-7
19.3.3	Field Survey Results	19-7
19.3.3.1	Field Survey Methodology	19-7
19.3.3.2	Non-Indigenous Sites and Places Located within the Study Area	19-8
19.3.4	Significance Assessment.....	19-17
19.3.4.1	Significance Levels for the Study Area.....	19-17
19.3.4.2	Significance Levels of Individual Sites.....	19-20
19.4	Potential Impacts and Mitigation Measures	19-21
19.4.1	Potential Impacts	19-21
19.4.2	Mitigation Measures.....	19-22
19.4.2.1	Avoidance of Sites	19-22
19.4.2.2	Further Assessment of the 19th Century Coach Route.....	19-23
19.4.2.3	Protection of Archaeological Places of State Significance (A-5 Hotel Site)	19-23
19.4.2.4	Mitigation of Sites A-7 and A-11	19-24
19.4.2.5	Unexpected Finds.....	19-24
19.4.2.6	Archaeologist ‘On-Call’	19-24
19.4.2.7	Regular Monitoring	19-24
19.5	Conclusion.....	19-25

SECTION 20 SOCIAL

20.1	Overview of the Project.....	20-1
20.2	Introduction.....	20-3
20.2.1	Methodology	20-4

20.2.1.1	Desktop Scoping Study	20-4
20.2.1.2	Baseline Assessment	20-4
20.2.1.3	Case Studies	20-5
20.2.1.4	Project Workforce Details	20-5
20.2.1.5	Impact Assessment	20-5
20.2.1.6	Mitigation and Management	20-5
20.2.1.7	Other Projects.....	20-5
20.2.1.8	Cumulative Effects.....	20-5
20.2.1.9	Social Impact Management Plan.....	20-6
20.2.1.10	SIA Consultation.....	20-6
20.2.2	Study Areas	20-7
20.3	Workforce Profile	20-8
20.3.1.1	Construction	20-8
20.3.1.2	Operation.....	20-12
20.4	Regional Study Area	20-14
20.4.1	Clermont and Isaac Regional Council	20-14
20.4.1.1	History and Settlement	20-14
20.4.1.2	Demographic	20-16
20.4.1.3	Culture and Community Dynamics.....	20-17
20.4.1.4	Housing and Accommodation	20-17
20.4.1.5	Health, Wellbeing and Social Infrastructure	20-18
20.4.1.6	Education and Training	20-19
20.4.1.7	Labour Market and Employment	20-19
20.4.1.8	Industry and Business	20-20
20.4.1.9	Income and Cost of Living.....	20-20
20.4.1.10	Governance.....	20-21
20.4.1.11	Primary Infrastructure and Access	20-22
20.4.2	Emerald and Central Highlands Regional Council	20-22
20.4.2.1	History and Settlement	20-22
20.4.2.2	Demographic	20-24
20.4.2.3	Culture and Community Dynamics.....	20-25
20.4.2.4	Housing and Accommodation	20-25
20.4.2.5	Health, Wellbeing and Social Infrastructure	20-26
20.4.2.6	Education and Training	20-27
20.4.2.7	Labour Market and Employment	20-28
20.4.2.8	Industry and Business	20-29
20.4.2.9	Income and Cost of Living.....	20-29
20.4.2.10	Governance.....	20-30
20.4.2.11	Primary Infrastructure and Access	20-31
20.5	Local Study Area.....	20-31
20.5.1	Alpha and Barcaldine Regional Council	20-31
20.5.1.1	History and Settlement	20-31
20.5.1.2	Demographic	20-34
20.5.1.3	Culture and Community Dynamics.....	20-35
20.5.1.4	Housing and Accommodation	20-36

20.5.1.5	Health, Wellbeing and Social Infrastructure	20-37
20.5.1.6	Education and Training.....	20-39
20.5.1.7	Labour Market and Employment	20-40
20.5.1.8	Industry and Business	20-41
20.5.1.9	Income and Cost of Living	20-41
20.5.1.10	Governance	20-42
20.5.1.11	Primary Infrastructure and Access	20-44
20.6	Conclusions.....	20-45

SECTION 21 HEALTH AND SAFETY

21.1	Introduction.....	21-1
21.1.1	Health and Safety Management System	21-1
21.2	Description of Public Health and Safety Community Values	21-2
21.2.1	Overview	21-2
21.2.2	Community Values.....	21-2
21.2.3	Project Workforce	21-4
21.3	Potential Impacts and Mitigation Measures	21-5
21.3.1	Community	21-5
21.3.2	Project Workforce	21-8
21.3.2.1	Emergency Planning.....	21-15
21.3.3	Cumulative Impacts	21-15

SECTION 22 ECONOMICS

22.1	Introduction.....	22-1
22.2	Description of Environmental Values	22-1
22.2.1	Regional Economy.....	22-1
22.2.2	Availability of Accommodation and Housing in the Regional Economy	22-2
22.3	Potential Impacts and Mitigation Measures	22-2
22.3.1	Construction and Capital Impacts.....	22-3
22.3.1.1	Output or Consumption Effects	22-4
22.3.1.2	Household Income Effects.....	22-5
22.3.1.3	Employment Effects.....	22-5
22.3.1.4	Value Added Effects	22-6
22.3.2	Ongoing and Operating Impacts.....	22-9
22.3.2.1	Output or Consumption Impacts.....	22-9
22.3.2.2	Household Income Effects.....	22-10
22.3.2.3	Employment Effects.....	22-10
22.3.2.4	Value Added Effects	22-10
22.3.3	Value of Coal Exports	22-14
22.3.4	Opportunity Cost of the Project.....	22-14
22.3.5	Summary of Impacts and Mitigation Measures.....	22-14
22.4	Conclusions.....	22-15

SECTION 23 SUSTAINABILITY

23.1	Introduction.....	23-1
23.1.1	Ecologically Sustainable Development.....	23-1

23.1.2	Legislative Context	23-1
23.1.2.1	Sustainable Planning Act 2009	23-1
23.1.2.2	Environmental Protection Act 1994	23-1
23.2	National Strategy for Ecologically Sustainable Development.....	23-1
23.3	Conclusion	23-12

SECTION 24 HAZARD AND RISK

24.1	Introduction	24-1
24.1.1	Purpose	24-1
24.1.2	Scope 24-1	
24.1.3	Approach	24-1
24.2	Preliminary Hazard Assessment.....	24-2
24.2.1	Objective.....	24-2
24.2.2	Method 24-2	
24.2.2.1	Risk Assessment Criteria	24-2
24.3	Risk Identification and Assessment	24-3
24.4	Construction Hazard and Risk Register.....	24-4
24.5	Operations Hazard and Risk Register	24-13
24.6	Decommissioning Hazard and Risk Register	24-23
24.7	Evaluation and Control of Risk	24-32
24.7.1	Safety Management System	24-32
24.7.2	Risk Management.....	24-32
24.7.3	Operational Controls.....	24-33
24.7.4	Specific Risk Controls.....	24-34
24.7.4.1	On-site Hazard and Risk Management	24-34
24.7.5	Off-site Hazard and Risk Management	24-43
24.8	Emergency Management Plan	24-46
24.8.1	Mine Emergency Management Plan	24-46
24.8.2	Notification	24-47
24.8.3	Emergency Management Structure.....	24-47
24.8.4	Procedures	24-49
24.9	Specific Requirements.....	24-50

SECTION 25 DECOMMISSIONING AND REHABILITATION

25.1	Rehabilitation Strategy.....	25-1
25.1.1	Introduction	25-1
25.1.2	Queensland Legislation and Guidelines	25-1
25.1.3	Rehabilitation Principles	25-2
25.1.4	Proposed Post Mining Land Use.....	25-2
25.1.5	Proposed Post Mining Land Classification	25-3
25.1.5.1	Land Suitability	25-3
25.1.5.2	Good Quality Agricultural Land	25-3
25.1.6	Landform Design and Planning	25-3
25.1.7	Staged Rehabilitation Approach.....	25-6
25.1.8	Management of Mining Waste.....	25-8
25.1.9	Topsoil Management	25-9

25.1.9.1	Soils Resource.....	25-9
25.1.9.2	Topsoil Stripping and Handling.....	25-10
25.1.9.3	Topsoil Respreading and Seedbed Preparation	25-11
25.1.9.4	Erosion and Sediment Control.....	25-12
25.1.10	Re-vegetation.....	25-13
25.1.10.1	Re-vegetation Program Implementation.....	25-13
25.1.10.2	Species Selection	25-14
25.1.10.3	Special Treatment Areas	25-15
25.1.11	Tailings Storage Facility Rehabilitation.....	25-16
25.1.11.1	External embankment slopes	25-16
25.1.11.2	Surface capping.....	25-16
25.1.12	Weed Management.....	25-16
25.1.13	Rehabilitation Success Criteria.....	25-17
25.1.14	Rehabilitation Monitoring	25-17
25.1.15	Rehabilitation Maintenance.....	25-18
25.2	Infrastructure Decommissioning and Closure.....	25-18
25.2.1	Decommissioning of Infrastructure, Plant and Buildings	25-18
25.2.1.1	Site Preparation	25-18
25.2.1.2	Site Services.....	25-18
25.2.1.3	Infrastructure and Buildings.....	25-18
25.2.1.4	Contaminated Land	25-19
25.2.2	Bulk Earthworks and Site Rehabilitation.....	25-19
25.2.2.1	Infrastructure, Plant and Buildings.....	25-19
25.2.2.2	Hardstand and Haul Roads	25-19
25.2.2.3	Dams and Surface Water Features	25-20
25.2.3	Void Management.....	25-20
25.2.3.1	Objectives.....	25-20
25.2.3.2	Final Void Management.....	25-21
25.2.3.3	Final Void Use	25-23
25.2.4	Post Closure Monitoring and Management	25-23

SECTION 26 ENVIRONMENTAL MANAGEMENT PLAN

SECTION 27 SOCIAL IMPACT MANAGEMENT PLAN

27.1	Section A: Project Summary	27-1
27.1.1	Location of the Project	27-1
27.1.2	Brief Summary of the Project.....	27-1
27.1.3	Social and Cultural Area of Influence	27-1
27.1.4	Summary of Baseline.....	27-4
27.1.4.1	Regional Study Area.....	27-4
27.1.4.2	Local Study Area	27-5
27.1.5	Potential Contribution to Regional Development.....	27-7
27.1.6	Project Monitoring Process	27-7
27.1.7	SIA Stakeholder Engagement	27-8
27.1.8	Proposed Workforce Profile	27-9
27.1.8.1	Construction.....	27-9

27.1.8.2	Operation.....	27-10
27.1.8.3	Local Employment and Procurement	27-12
27.1.9	Impact Categories and Context	27-12
27.1.9.1	Categories	27-12
27.1.9.2	Context	27-12
27.1.9.3	Considerations.....	27-16
27.1.10	Social Impact Management Plan Development Strategy	27-17
27.2	Section B and D: Identified Impact and Impact Analysis	27-20
27.2.1	Identified Impact and Impact Analysis	27-20
27.2.2	Mitigation and Management	27-28
27.3	Section D: Monitoring, Reporting and Review	27-30
27.3.1	Monitoring	27-30
27.3.2	Reporting	27-41
27.3.2.1	Reporting to stakeholders	27-41
27.3.2.2	Reporting to the Social Impact Assessment Unit.....	27-41
27.3.3	External Review.....	27-41
27.3.4	Amendment and Termination	27-41
27.4	Section E: Communications and Community Engagement.....	27-41
27.4.1	Overview.....	27-41
27.4.2	Construction and Operations.....	27-43
27.4.2.1	Stakeholders.....	27-43
27.4.2.2	Actions.....	27-43
27.4.2.3	Management Strategies	27-45
27.4.2.4	Review.....	27-45
27.5	Section F: Issues and Risks Action Plan	27-45

PLATES

Plate 4-1 Chip tray showing Tertiary sediments and Lateritic zone Chip tray showing Tertiary sediments and Lateritic zone	4-11
Plate 4-2 Permian overburden reddened alluvial sediments, approximately 22.5 to 30 m below surface	4-12
Plate 4-3 Representative samples of the B-C interburden material	4-20
Plate 4-4 Typical C Upper unit in 10” large diameter core	4-23
Plate 4-5 Boundary between CU and C1	4-24
Plate 4-6 C2 ply separated from C1 and C3 by small claystone bands	4-25
Plate 4-7 Gradational boundary at the base of the C3 ply	4-26
Plate 4-8 Interburden between C and D seams showing laminated sandstone/siltstone	4-26
Plate 4-9 The splitting of the D seam showing the coaly shale parting.....	4-27
Plate 4-10 Interburden between DLM2 and DLL, showing the interbedded sandstone/siltstone	4-29
Plate 4-11 DLL ply comprised of DL1 and DL2 showing the stony parting.....	4-30
Plate 4-12 E to D interburden showing pebbly sandstone overlying the E seam.....	4-31
Plate 4-13 The E seam located between large sandstone/siltstone partings.....	4-31
Plate 4-14 Weathering depth defined by colour change	4-43
Plate 19-1 Potential hotel site (A-5).....	19-13
Plate 19-2 Kate Doonan’s gravesite (A-2).....	19-13
Plate 19-3 In situ cart ruts (A-6).....	19-14
Plate 19-4 Bottle dump (A-3).....	19-14
Plate 19-5: Lagoon Creek Bush Camp (A-1).....	19-15
Plate 19-6 Hobartville homestead (A-8)	19-15
Plate 19-7 Interior of front verandah, Hobartville homestead (A-8).....	19-15
Plate 19-8 Gravesite, Hobartville homestead (A-8).....	19-15

Plate 19-9 Greentree Dam (A-9) 19-16

Plate 19-10 Marsupial fencing (A-10)..... 19-16

Plate 19-11 Murdering Lagoon (A-11)..... 19-16

Plate 19-12 Wendouree Station (A-7) 19-16

Plate 20-1 Typical Rural Residential Property 20-15

Plate 20-2 Typical Road Train in the Region 20-23

Plate 20-3 Barcaldine Show Attendees at the Project Information Display 20-32
