An Environmental Impact Statement (EIS) was completed for the Alpha Coal Project (a proposed 30 Mpta open cut thermal coal mine and rail and port infrastructure facilities) and made available for public comment from 5 November 2010 to 20 December 2010 (Issue 3, November 2010). The EIS covered potential environmental issues related to the development and operation of the Alpha Coal Project and how they would be managed.

The Alpha Coal Project Supplementary Environmental Impact Statement (SEIS) has been prepared in response to the submissions made during the public comment period and changes to the Project Description following the release of the EIS.

The SEIS is split into two volumes: the first volume covers the Introduction and Project Description changes. It also covers the Project Wide, Coal Mine and Railway Corridor response to the submissions made. Volume two contains the corresponding stand alone technical reports and supporting documentation.

Alpha Coal Project Supplementary Environmental Impact Statement

HOW TO USE THIS DVD

1. Click on the "Go to Table of Contents" button below.
2. Click on the section/appendix you wish to view. It will open in a new window.
3. Once you have finished viewing the section/appendix, click on the "X" in the top right hand corner to close the window.

Table of Contents

VOLUME 1 – SECTIONS

01	Introduction
02	Amendments to the Project Description
03	Comments and Responses – Project Wide
04	Comments and Responses – Coal Mine
05	Comments and Responses – Railway Corridor

VOLUME 2 – APPENDICES

A	Glossary, Abbreviations and Units
B	References
C	Revised Description of the Project
D	List of Proponent Commitments
E	Social Impact Assessment Update
FA	EPBC Report – Coal Mine
FB	EPBC Report – Rail Corridor
G	Standard Criteria
H	Coal Mine – IPCC Functional Description
I	Coal Mine – Surface Water Summary
J	Coal Mine – Geomorphology Technical Report
K	Coal Mine – Flooding Technical Report
L	Coal Mine – Site Water Management System and Water Balance Technical Report
M	Coal Mine – Surface Water Quality Technical Report
N	Coal Mine – Groundwater and Final Void Report
O	Coal Mine – Groundwater Bore Survey Report
P	Coal Mine – Air Quality

Q	Coal Mine – Greenhouse Gas
R	Coal Mine – Noise and Vibration
S	Coal Mine – Interim Geochemical Report
T	Coal Mine – Tailing Storage Facility Update
U	Coal Mine – Traffic Impact Assessment
V	Coal Mine – Environmental Management Plan
W	Coal Mine – Soil and Land Suitability Assessment Supplementary Information
X	Report for Alpha Coal Project Offset Strategy
Y	Railway Corridor – BFS Drainage Engineering Report
Z	Railway Corridor – Acid Sulfate Soils Management Framework
AA	Railway Corridor – Species Management Program
AB	Railway Corridor – Traffic Impact Assessment
AC	Railway Corridor – Environmental Management Plan
AD	Railway Corridor – Erosion and Sediment Control Criteria
AE	Railway Corridor – Terrestrial Ecology
AF	Railway Corridor – Temporary Infrastructure Report
AG	Railway Corridor – Weed Management Plan
AH	Railway Corridor – Resource Sterilisation Review of the IFS Rail Corridor
AI	Railway Corridor – Caley Valley Wetland Freshwater Aquatic Flora and Fauna Assessment for Rail Loop
AJ	DERM EIS Submissions and Responses
AK	Railway Corridor – Non-Indigenous Cultural Heritage Survey Report (Stage 2) – Alpha to Bowen Rail to Port Corridor
AL	Railway Corridor – Proposed Soils Survey Methodology
AM	Coal Mine – Aquatic Ecology Assessment
